

KEEP WARM THIS WINTER!

*Get the help and advice
you need to stay
warm this winter*

- Do you find it hard to pay your gas and electricity bills?
- Is your home hard to heat?
- Would you like to check you are getting all the benefits and financial help you are entitled to?
- Is keeping warm in winter made more difficult by poor health, having a disability, mental health issues, having young children under 5, or living off-gas?

If you answered **YES** to one of these questions, we can help you through our **Healthy Homes Project** with help and advice on *benefit claims, switching suppliers, home improvements and loans and grants.*
